

Rodan + Fields - Life Changing Skincare - Welcome to Team HEAL

I have a vision for HEAL. I have huge goals for our community in Kenya. To reach those goals, to bring my vision to life, I am always looking for creative ways to raise money. Partnering with *Rodan+Fields* is one of those unique ways in which I can truly make a difference for the children at Rapha Community Center in Kenya.

Rodan+Fields was founded by two of the most successful names in skincare, Dr. Katie Rodan and Dr. Kathy Fields. The Doctors trained at the Stanford University School of Medicine and are well recognized as the creators of Proactiv Solution. After redefining the market for acne skincare, they started their new venture, *Rodan+Fields*, and are redefining anti-aging skincare. They are, as Women's Health noted, "a dermatological dream team," and building a brand which was the fastest growing skincare brand in the US for the last five years and now the #1 skincare brand in North America!

Not only are the products changing skin, the unique business model is changing lives. Partnering with *Rodan +Fields* offers the opportunity for people to be the CEO of their own business, which they can work when and how they want. *Rodan+Fields* is helping people to realize their own dreams through financial and time freedom. What I love most is that through this partnership, I can help my children and help others go after their goals just like I am. Anything is possible!

How can *you* help?

- 1) Discover your best skin by using the products as a preferred customer.
- 2) Partner with Rodan+Fields so you can have the vehicle to create your own best life.
- 3) Share this opportunity with others.

**Everyone has a different "why".
Every "why" is important.
My "why" is my children in Kenya.
What is your "why"?**
